

NewSoft welcomes all to visit us at InfoComm 2006!

Exhibition Dates: June 7 - June 9, 2006

Our Location: Booth 4207, Orange County Convention Center, Orlando, Florida

NewSoft is pleased to invite you to join us at InfoComm 2006, beginning June 7th through June 9th. NewSoft this year will be showcasing its newest wireless AV technologies for enabling wireless TV and projecting systems and which feature seamless hardware-software integration with PC-based applications.

Featured Products:

- **WVR 100 A** based on NewSoft's advanced wireless A/V transmission technology and features Presto! WVR software, enables a user's laptop to be transformed into a portable TV, allowing users to watch their favorite video programs anywhere within the comfort of their own home as it adopts IEEE 802.11a/b/g WLAN A/V transmission technology.
- **WMS 100 Image** is the ideal wireless broadcast solution that enables PowerPoint presentations and screen-captured images from Wi-Fi enabled notebooks or PCs anywhere in the room to be broadcasted to the projector by using wireless LAN technology.
- **Presto! WMS (Image + Video)** further supports transmission of both screen-captured images and MPEG-1/2 videos from a laptop or PC to the projector. It offers enterprises a more cost-efficient approach to using their projectors and allows users to make wireless presentations anywhere in the room.

We welcome your visits to our booth during the exhibition! Come and discover what NewSoft can do for you!
